DON'T GET CAUGHT UP THE CREEK WITHOUT NIKWAX®!

Riding down those adrenalin crazed creeks and getting splashed all over is great fun, but as soon as the water starts to soak into paddle clothing, a cold and damp feeling sets in.

Nikwax has the solution that will keep you feeling warm, dry and comfortable. Use Nikwax to clean and waterproof all paddle gear. Simply wash your gear first with Nikwax **Tech Wash** in a conventional washing machine, or hand wash to remove dirt, sweat and other contaminants. Then waterproof by running another cycle using Nikwax **TX.Direct wash-in**, or use Nikwax **TX.Direct spray-on** which is ideal for waterproofing cags.

Using Nikwax is easy and safe. The product range is environmentally friendly. There are no chemical solvents, no fluorocarbons, it is non-toxic, non-flammable and does not require heat activation to work. Nikwax products do not contribute to global warming or ozone depletion.

Through proper care and maintenance of your gear, Nikwax products will prolong the working life and optimise the performance of your gear in wet conditions. So, make Nikwax your ultimate necessity for comfort control whilst canoeing and kayaking.

Nikwax is distributed by High 'n' Mighty and is recommended by leading brands including Peak UK, Palm and Kokatat and is used by renowned paddlers including Olly Sanders, Corran Addison and Pete Astles. Nikwax is available from all good Kayak Stores and now Marsport in Reading.

For more information and to try your luck play the Nikwax web quiz, answer all the questions correctly and **WIN** free Nikwax products. Plus Nikwax are giving away BIG value prizes - go on have a go, visit www.nikwax.com

Editors Notes

Since its formation in 1976, Nikwax Waterproofing has become one of the world's leading aftercare manufacturers for clothing, footwear and equipment, supplying products to outdoor sport and leisure markets. Nikwax's cleaning and waterproofing solutions are the industry standard for maintaining fabric performance and durability in the most extreme weather conditions. High levels of investment in research and development has resulted in a range of new product areas based on the ethos of EASIER - easy to use and apply, SAFER - non-toxic and environmentally safe and DRIER - improved performance and durability. Nikwax products can be applied simply and easily in a washing machine to revive outdoor and wet weather clothing, so suffering from getting wet in the rain is a thing of the past. Not only will Nikwax protect and keep clothing dry, it will restore and maintain gear to 'as new' condition, whether it's leather footwear, down-filled jackets, fleeces, rucksacks or sleeping bags – there is a product for every activity!
